

FANS & BLOWERS

Manufacturers of Industrial Fans for over 50 years

Supply high
flow at low
pressure

FCZ DATA SHEET

Centrifugal Fan

The FCZ range of fans is designed to supply high flow at low pressures and minimum speed using a forward curved blade.

KEY FEATURES

- Range of special sizes for low pressure burner applications.
- Built to right or left hand with standard orientations as required.
- Taperlock impeller hub for ease of maintenance.
- Standard motors IP55, 3 phase. (Single phase option available but may not comply with ErP regulation)
- Standard finish is RAL texture 7016.

SPECIFICATIONS

- Flexible inlet & outlet connections, multi-layer fabric type.
- Built to right or left hand with standard orientations as required.
- Standard motors IP55, 3 phase. (Single phase option available but may not comply with ErP regulation)
- Optional motor enclosures other than IP55.

INDUSTRIES & APPLICATIONS

The FCZ range can commonly be found in general ventilation applications, **product cooling**, low pressure combustion.
